

organizational documents and such Partnership's reports to its Participants.

In addition, the General Partner will record and will preserve a description of all Section 17 Transactions, the General Partner's findings and the information or materials upon which the General Partner's findings are based and the basis for the findings. All such records will be maintained for the life of the Partnership and at least six years thereafter, and will be subject to examination by the Commission and its staff. Each Partnership will preserve the accounts, books and other documents required to be maintained in an easily accessible place for the first two years.

2. The General Partner will adopt, and periodically review and update, procedures designed to ensure that reasonable inquiry is made, prior to the consummation of any Section 17 Transaction, with respect to the possible involvement in the transaction of any affiliated person or promoter of or principal underwriter for such Partnership, or any affiliated person of such a person, promoter or principal underwriter.

3. The General Partner will not make on behalf of a Partnership any investment in which a Co-Investor (as defined below) has acquired or proposes to acquire the same class of securities of the same issuer, where the investment involves a joint enterprise or other joint arrangement within the meaning of rule 17d-1 in which such Partnership and the Co-Investor are participants, unless any such Co-Investor, prior to disposing of all or part of its investment, (a) gives such General Partner sufficient, but not less than one day's, notice of its intent to dispose of its investment, and (b) refrains from disposing of its investment unless the participating Partnership holding such investment has the opportunity to dispose of its investment prior to or concurrently with, on the same terms as, and on a pro rata basis with, the Co-Investor. The term "Co-Investor" with respect to any Partnership means any person who is: (a) An "affiliated person" (as defined in section 2(a)(3) of the Act) of such Partnership (other than a JPMorgan Chase Third Party Fund); (b) a JPMorgan Chase entity; (c) an officer, director or partner of a JPMorgan Chase entity; or (d) an entity (other than a JPMorgan Chase Third Party Fund) in which the General Partner acts as a general partner or has a similar capacity to control the sale or other disposition of the entity's securities. The restrictions contained in this condition, however, shall not be deemed to limit or prevent the disposition of an investment by a Co-Investor: (a) To its direct or indirect

wholly-owned subsidiary, to any company (a "Parent") of which such Co-Investor is a direct or indirect wholly-owned subsidiary, or to a direct or indirect wholly-owned subsidiary of its Parent; (b) to immediate family members of such Co-Investor, including step and adoptive relationships, or to a trust or other investment vehicle established for any such immediate family member; or (c) when the investment is comprised of securities that are (i) listed on any exchange registered as a national securities exchange under section 6 of the 1934 Act; (ii) NMS stocks pursuant to section 11A(a)(2) of the 1934 Act and rule 600(b) of Regulation NMS thereunder; (iii) government securities as defined in section 2(a)(16) of the Act or other securities that meet the definition of "Eligible Security" in rule 2a-7 under the Act; or (iv) listed on or traded on any foreign securities exchange or board of trade that satisfies regulatory requirements under the law of the jurisdiction in which such foreign securities exchange or board of trade is organized similar to those that apply to a national securities exchange or a national market system for securities.

4. Each Partnership and its General Partner will maintain and preserve, for the life of such Partnership and at least six years thereafter, such accounts, books, and other documents as constitute the record forming the basis for the audited financial statements that are to be provided to the Participants in such Partnership, and each annual report of such Partnership required to be sent to such Participants, and agree that all such records will be subject to examination by the Commission and its staff. Each Partnership will preserve the accounts, books and other documents required to be maintained in an easily accessible place for the first two years.

5. The General Partner of each Partnership will send to each Participant in that Partnership, at any time during the fiscal year then ended, Partnership financial statements audited by such Partnership's independent accountants, except in the case of a Partnership formed to make a single Portfolio Investment. In such cases, the partnership may send unaudited financial statements, but each Participant will receive financial statements of the single Portfolio Investment audited by such entity's independent accountants. At the end of each fiscal year, the General Partner will make a valuation or have a valuation made of all of the assets of the Partnership as of such fiscal year end in a manner consistent with customary practice with respect to the valuation of

assets of the kind held by the Partnership. In addition, within 120 days after the end of each fiscal year of each Partnership or as soon as practicable thereafter, the General Partner will send a report to each person who was a Participant at any time during the fiscal year then ended, setting forth such tax information as shall be necessary for the preparation by the Participant of his, her or its U.S. federal and state income tax returns and a report of the investment activities of the Partnership during that fiscal year.

6. If a Partnership makes purchases or sales from or to an entity affiliated with the Partnership by reason of an officer, director or employee of JPMorgan Chase (a) serving as an officer, director, general partner or investment adviser of the entity, or (b) having a 5% or more investment in the entity, such individual will not participate in the Partnership's determination of whether or not to effect the purchase or sale.

For the Commission, by the Division of Investment Management, under delegated authority.

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-69381; File No. SR-MIAX-2013-16]

### Self-Regulatory Organizations; Miami International Securities Exchange LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Modify the MIAX Fee Schedule

April 16, 2013.

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on April 5, 2013, Miami International Securities Exchange LLC ("MIAX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

**I. Self-Regulatory Organization’s Statement of the Terms of the Substance of the Proposed Rule Change**

The Exchange is filing a proposal to modify the MIAX Fee Schedule (“Fee Schedule”) to establish fees for option contracts overlying 10 shares of a security (“Mini Options”). The Exchange proposes to implement these fee changes to coincide with the Exchange’s listing and trading of Mini Options on April 17, 2013.

The text of the proposed rule change is available on the Exchange’s Web site at [http://www.miaxoptions.com/filter/wotitle/rule\\_filing](http://www.miaxoptions.com/filter/wotitle/rule_filing), at MIAX’s principal office, and at the Commission’s Public Reference Room.

**II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

*A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change*

1. Purpose

The Exchange proposes to modify the Fee Schedule to establish fees for Mini

Options. The Exchange represented in its filing with the Securities and Exchange Commission (“SEC” or the “Commission”) to establish Mini Options that, “the current schedule of Fees will not apply to the trading of mini-options contracts. The Exchange will not commence trading of mini-option contracts until specific fees for mini-options contracts trading have been filed with the Commission.”<sup>3</sup> As the Exchange intends to begin trading Mini Options on April 17, 2013 it is submitting this filing to describe the transaction fees that will be applicable to the trading of Mini Options.

Mini Options have a smaller exercise and assignment value due to the reduced number of shares they deliver as compared to standard option contracts. As such, the Exchange is proposing generally lower per contract fees as compared to standard option contracts, with some exceptions to be fully described below. Despite the smaller exercise and assignment value of a Mini Option, the cost to the Exchange to process quotes and orders in Mini Options, perform regulatory surveillance and retain quotes and orders for archival purposes is the same as for a standard contract. This leaves the Exchange in a position of trying to strike the right balance of fees applicable to Mini Options—too low and the costs of processing Mini Options quotes and orders will necessarily cause the Exchange to either raise fees for everyone or only for participants trading Mini Options; too high and participants may be deterred from trading Mini Options, leaving the Exchange less able to recoup costs

associated with development of the product, which is designed to offer investors a way to take less risk in high dollar securities. The Exchange, therefore, believes that adopting fees for Mini Options that are in some cases lower than fees for standard contracts, and in other cases the same as for standard contracts, is appropriate, not unreasonable, not unfairly discriminatory and not burdensome on competition between participants, or between the Exchange and other exchanges in the listed options market place.

Exchange Transaction Fees

The Exchange proposes establishing Mini Options transaction fees for all Market Makers and other market participants that would be 10% of the fee associated with standard options. The Mini Options transaction fee, as its standard option counterpart, would apply per executed contract to Registered Market Makers, Lead Market Makers, Directed Order-Lead Market Makers, Primary Lead Market Makers, Directed Order-Primary Lead Market Makers, Public Customers that are not Priority Customers, Non-MIAX Market Makers, Non-Member Broker-Dealers, and Firms. Below is a chart providing a comparison of the transaction fees for standard options and to the proposed fees for Mini Options:

Type of MIAX Market Maker	Standard options transaction fee (per executed contract)	Mini options transaction fee (per executed contract)
Registered Market Maker	\$0.23	\$0.023
Lead Market Maker	0.20	0.020
Directed Order—Lead Market Maker	0.18	0.018
Primary Lead Market Maker	0.18	0.018
Directed Order—Primary Lead Market Maker	0.16	0.016
Priority Customer	0.00	0.000
Public Customer that is Not a Priority Customer	0.25	0.025
Non-MIAX Market Maker	0.45	0.045
Non-Member Broker-Dealer	0.45	0.045
Firm	0.25	0.025

In proposing Mini Options transaction fees that are 10% of the related standard option transaction fee, the Exchange acknowledges and takes into account

that Mini Options have a smaller exercise and assignment value due to the reduced number of shares to be delivered as compared to standard

option contracts. The Mini Options transaction fee charged to Priority Customers<sup>4</sup> would remain at \$0.00

<sup>3</sup> See Securities Exchange Act Release No. 69136 (March 14, 2013), 78 FR 17259 (March 20, 2013) (SR-MIAX-2013-06). The Commission notes that the actual language from the Exchange’s filing is:

“the current MIAX Fee Schedule will not apply to the trading of mini-option contracts. The Exchange will not commence trading of mini-option contracts

until specific fees for mini-option contracts trading have been filed with the Commission.”

<sup>4</sup> The term “Priority Customer” means a person or entity that (i) is not a broker or dealer in

because the transaction fee for standard options, currently set at \$0.00, cannot be reduced any lower.

Marketing Fee

Currently, the Exchange assesses a Marketing Fee to all Market Makers for contracts they execute in their assigned

classes when the contra-party to the execution is a Priority Customer. The Exchange proposes assessing a Marketing Fee for applicable transactions in Mini Options and setting the fee to be 10% of the associated fee for standard options. As noted above, the Exchange bases this proposal on the

smaller exercise and assignment value due to the reduced number of shares to be delivered with Mini Options as compared to standard option contracts. Below is a chart providing a comparison of the Marketing Fees for standard options and to the proposed fees for Mini Options:

Amount of marketing fee assessed	Option classes
\$0.70 (per contract) .....	Transactions in Standard Option Classes that are not in the Penny Pilot Program.
\$0.25 (per contract) .....	Transactions in Standard Option Classes that are in the Penny Pilot Program.
\$0.070 (per contract) .....	Transactions in Mini Options where the corresponding Standard Option is not in the Penny Pilot Program.
\$0.025 (per contract) .....	Transactions in Mini Options where the corresponding Standard Option is in the Penny Pilot Program

Fixed Fee Surcharge

In order to comply with the requirements of the Distributive Linkage Plan,<sup>5</sup> the Exchange uses various means of accessing better priced interest located on other exchanges. Presently, the Exchange charges a Fixed Fee Surcharge of \$0.10 per contract plus a pass through of the fees associated with the execution of the routed order on the other exchanges. The \$0.10 is designed to recover the Exchange’s costs in routing orders to the other exchanges. Those costs include clearance charges imposed by The Options Clearing Corporation (“OCC”) and per contract routing fees charged by the broker dealers who charge the Exchange for the use of their systems to route orders to other exchanges. It is the Exchange’s understanding that both the OCC and the broker dealers have kept their charges applicable to Mini Options the same as for standard option contracts, as their cost to process a contract (i.e., routing or clearing) is the same irrespective of the exercise and assignment value of the contract. As such, the Exchange intends to charge the same Fixed Fee Surcharge for Mini Options as it presently does for standard options, as described in Section (1)(c) of the current Fee Schedule. The Exchange notes that participants can avoid the Fixed Fee Surcharge in several ways. First, they can simply route to the exchange with the best priced interest. The Exchange, in recognition of the fact that markets can move while orders are in flight, also offers participants the ability to utilize an order type that does not route to other exchanges. Specifically, the Do Not Route (“DNR”) order modifier is one such order that would never route to another exchange. Given this ability to avoid the Fixed Fee Surcharge, coupled with the fixed third-party costs associated with routing, the

Exchange believes it is reasonable to charge the same Routing Surcharge for Mini Options that is charged for standard option contracts.

Options Regulatory Fee

Presently the Exchange charges an Options Regulatory Fee (“ORF”) of \$0.004 per contract. The ORF is assessed on each MIAX Member for all options transactions executed or cleared by the MIAX Member that are cleared by the OCC in the customer range, regardless of the exchange on which the transaction occurs. The Exchange is proposing to charge the same rate for transactions in Mini Options, \$0.004 per contract, since, as noted, the costs to the Exchange to process quotes, orders, trades and the necessary regulatory surveillance programs and procedures in Mini Options are the same as for standard option contracts. As such, the Exchange feels that it is appropriate to charge the ORF at the same rate as the standard option contract.

2. Statutory Basis

MIAX believes that its proposal to amend fee schedule is consistent with Section 6(b) of the Act<sup>6</sup> in general, and furthers the objectives of Section 6(b)(4) of the Act<sup>7</sup> in particular, in that it is an equitable allocation of reasonable fees and other charges among its members, issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers.

The Exchange noted earlier that, while Mini Options have a smaller exercise and assignment value due to the reduced number of shares to be delivered as compared to standard option contracts, and despite the smaller exercise and assignment value of a Mini Option, the cost to the Exchange to process quotes and orders

in Mini Options, perform regulatory surveillance and retain quotes and orders for archival purposes is the same as for a standard contract. This leaves the Exchange in a position of trying to strike the right balance of fees applicable to Mini Options—too low and the costs of processing Mini Options quotes and orders will necessarily cause the Exchange to either raise fees for everyone or only for participants trading Mini Options; too high and participants may be deterred from trading Mini Options, leaving the Exchange less able to recoup costs associated with development of the product, which is designed to offer investors a way to take less risk in high dollar securities. Given these realities, the Exchange believes that adopting fees for Mini Options that are in some cases lower than standard contracts, and in other cases the same as for standard contracts, is appropriate, not unreasonable, not unfairly discriminatory and not burdensome on competition between participants, or between the Exchange and other exchanges in the listed options market place.

In the case of most trade related charges, the Exchange has decided to offer lower per contract fees to participants as part of trying to strike the right balance between recovering costs associated with trading Mini Options and encouraging use of the new Mini Option contracts, which are designed to allow investors to reduce risk in high dollar underlying securities.

The Exchange proposal to establish transaction fees applicable to Market Makers and all other participants to be 10% of the fee charged for standard options is reasonable in light of the fact that the Mini Options do have a smaller exercise and assignment value, specifically 1/10th that of a standard

securities, and (ii) does not place more than 390 orders in listed options per day on average during

a calendar month for its own beneficial account(s). See Exchange Rule 100.

<sup>5</sup> See Exchange Rule 529.

<sup>6</sup> 15 U.S.C. 78f(b).

<sup>7</sup> 15 U.S.C. 78f(b)(4).

option contract. The Exchange's proposal is based on the already established classification of Market Makers and other market participants for standard option contracts, which is an effective fee on the Exchange and has not been determined to be inequitable or unfairly discriminatory. Therefore, the Exchange believes the proposed pricing for Mini Options to be equitable and not unfairly discriminatory as it would apply to all members of a given class (i.e., the Mini Options transaction fee for Register Market Makers would apply to all Register Market Makers).

The Exchange believes the proposal to charge Priority Customers \$.00 per contract to be reasonable, as Priority Customers have traded for free all options on the Exchange since the inception of the Exchange. The ability to trade for free attracts Priority Customer order flow to the Exchange, which is beneficial to all other participants on the Exchange who generally seek to trade with Priority Customer order flow. The proposed fee of \$.00 per contract is the same fee charged to Priority Customer orders in standard option contracts, which is an effective fee on the Exchange and has not been determined to be inequitable or unfairly discriminatory. Therefore, the proposed Priority Customer pricing for Mini Options would be equitable and not unfairly discriminatory.

The Exchange believes its proposal to assess a Marketing Fee to all Market Makers for Mini Options contracts they execute in their assigned classes when the contra-party to the execution is a Priority Customer with such Marketing Fee set at 10% of the related fee charged for standard options to be reasonable in light of the fact that the Minis do have a smaller exercise and assignment value, specifically 1/10th that of a standard contract. The Exchange does not believe its proposal to be unfairly discriminatory because it applies to all applicable Market Makers evenly.

The Exchange proposal to treat Mini Options the same as standard options for purposes of the Fixed Fee Surcharge is reasonable, equitable and not unfairly discriminatory for the following reasons. Presently, the Exchange charges a Routing Surcharge of \$0.10 per contract plus a pass through of the fees associated with the execution of the routed order on the other exchanges. The \$0.10 is designed to recover the Exchange's costs in routing orders to the other exchanges. Those costs include clearance charges imposed by the OCC and per contract routing fees charged by the broker dealers who charge the Exchange for the use of their systems to route orders to other exchanges. The

Exchange understands that both the OCC and the broker dealers have kept their charges applicable to Mini Options the same as for standard option contracts, as their cost to process a contract (i.e., routing or clearing) is the same irrespective of the exercise and assignment value of the contract. As such, the Exchange intends to charge the same Fixed Fee Surcharge for Mini Options as it presently does for standard options, as described in Section (1)(c) of the current Fee Schedule. The Exchange notes that participants can avoid the Fixed Fee Surcharge in several ways. First they can simply route to the exchange with the best priced interest. The Exchange, in recognition of the fact that markets can move while orders are in flight, also offers participants the ability to utilize an order type that does not route to other exchanges. Specifically, the DNR order type is an order that would never route to another exchange. Given this ability to avoid the Fixed Fee Surcharge, coupled with the fixed third party costs associated with routing, the Exchange feels it is reasonable and equitable to charge the same Fixed Fee Surcharge for Mini Options that is charged for standard option contracts. Since the Fixed Fee Surcharge will apply to all participants in Mini Options as it is applied for standard options, and because such surcharge has not previously been found to be unreasonable, inequitable or unfairly discriminatory, the Exchange believes it is the case for Mini Options as well.

The Exchange notes, particularly in the context of the ORF, that the cost to perform surveillance to ensure compliance with various Exchange and industry-wide rules is no different for a Mini Option than it is for a standard option contract. Reducing the ORF for Mini options could result in a higher ORF for standard options. Such an outcome would arguably be discriminatory towards investors in standard options for the benefit of investors in Minis. As such, the appropriate approach is to treat both Mini Options and standard options the same with respect to the amount of the ORF that is being charged.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The proposed change designed to provide greater specificity and precision within the Fee Schedule with respect to the fees that will be applicable to Mini

Options when they begin trading on the Exchange on or about April 17, 2013.

The Exchange believes that adopting fees for Mini Options that are in some cases lower than for standard contracts, but in other cases the same as for standard contracts, strikes the appropriate balance between fees applicable to standard contracts versus fees applicable to Mini Options, and will not impose a burden on competition among various market participants on the Exchange, or between the Exchange and other exchanges in the listed options market place, not necessary or appropriate in furtherance of the purposes of the Act. In this regard, as Mini Options are a new product being introduced into the listed options marketplace, the Exchange is unable at this time to absolutely determine the impact that the fees proposed herein will have on trading in Mini Options. That said, however, the Exchange believes that the rates proposed for Mini Options, would not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

Finally, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and credits to remain competitive with other exchanges. For the reasons described above, the Exchange believes that the proposed rule change reflects this competitive environment.

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

Written comments were neither solicited nor received.

### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.<sup>8</sup> At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine

<sup>8</sup> 15 U.S.C. 78s(b)(3)(A)(ii).

whether the proposed rule should be approved or disapproved.

#### IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

##### *Electronic Comments*

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to [rule-comments@sec.gov](mailto:rule-comments@sec.gov). Please include File Number SR-MIAX-2013-16 on the subject line.
