

Katherine S. Comly

1. Text of Proposed Rule Change

(a) MIAX PEARL, LLC (“MIAX Pearl” or “Exchange”), pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² proposes to provide an additional means to access its Member Firm Portal.³

Notice of the proposed rule change for publication in the Federal Register is attached hereto as Exhibit 1.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by the Chief Executive Officer of the Exchange or his designee pursuant to authority delegated by the MIAX Pearl Board of Directors on February 2, 2023. Exchange staff will advise the Board of Directors of any action taken pursuant to delegated authority. No other action by the Exchange is necessary for the filing of the proposed rule change.

Questions and comments on the proposed rule change may be directed to Katherine Comly, AVP, Associate Counsel, at (609) 613-1396.

3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ See MIAX Exchanges Member Firm Portal User Manual, available at https://www.miaxglobal.com/sites/default/files/page-files/MIAX_Exchanges_Member_Firm_Portal_User_Manual_01032023.pdf.

The Exchange provides Members access to an internet-facing portal which provides self-service functions to Members, known as the Member Firm Portal (“MFP”). Specifically, the MFP allows Members to correct certain trade information required by the Options Clearing Corporation (“OCC”), such as the trade’s account number, sub-account number, Clearing Member Trade Assignment (“CMTA”), Clearing Participant Give-Up, or account type. The MFP also provides Members the ability to adjust risk settings and allows Market Makers⁴ to request options class assignments. Members may also perform the following function via the MFP: selecting symbol assignments; editing existing symbol assignments; unassigning one or more symbol; retrieving symbol assignments; receiving export of symbol assignments for a business day; and retrieving assignment history for a given symbol assignment. The MFP allows Members to more efficiently manage their back office operations and assist them in providing accurate clearing information to the OCC. Currently, access to the MFP is provided on a per user basis, whereby Members seek to have individuals within their organization permissioned to access the MFP via a web portal on their behalf (known as the “MFP User Interface” or “MFP UI”). The Exchange notes that other options exchanges make similar products available to firms for a monthly per user fee.⁵ The Exchange provides the MFP UI to Members free of charge.

Members have requested that the Exchange also provide access to the MFP via an Application Programming Interface⁶ (“API” and together “MFP API”), in addition to the current

⁴ See Exchange Rule 100.

⁵ See BOX Exchange LLC Fee Schedule, Section III. D. The Nasdaq Stock Market LLC (“Nasdaq”) charges \$200 per month, per user. See Nasdaq Rules Options 7 Pricing Schedule, Section 6 Nasdaq Options Maintenance Tool. See also Securities Exchange Act Release No. 96723 (January 20, 2023), 88 FR 5046 (January 26, 2023) (SR-BOX-2023-03) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to Establish a New Service and Related Fees for Use of the BOX Options Market LLC (“BOX”) Trade Management System).

⁶ The Exchange intends to submit a separate filing with the Commission pursuant to Section 19(b)(1) to propose fees for the Service.

MFP UI accessed via the web portal. In sum, an API is a way for two or more computer programs to talk to each other. It is a software to software interface that defines the data and the transactions that can be communicated between systems. In providing the MFP API, functions that would otherwise be done manually via the MFP UI, can be automated. The MFP API, in essence, facilitates and expedites the transaction processing for the supported functionality such that the Exchange Members can automate their interactions with the MFP. This allows for more efficient processing, the potential reduction of operational risk due to issues caused by human error, the timeliness of the completion of MFP-related functions, etc.⁷ Providing API access to the MFP would allow Members to enable their systems and applications to communicate directly with the MFP, thereby eliminating or reducing the need for individuals to access the MFP UI via the web portal.

The Exchange does not propose to alter the current MFP or MFP UI. The Exchange simply proposes to provide an additional and optional means to access the MFP, in the form of an API, and Members would be able to perform the same functions they do today when they access the MFP UI via the web portal. API access to the MFP would allow a Member's applications to communicate directly with the MFP. Therefore, by its nature, the MFP API does not lend itself to access on a per user basis, as is the case today with the MFP UI via the web portal. API access would allow Members to automate functions they perform today on the MFP, such as adjusting risk settings or managing options assignments. Members who do not prefer to access the MFP API would be able to perform the same functions when accessing the MFP UI via the current web portal.

⁷ See, e.g., What is an API?, available at <https://www.ibm.com/topics/api> (last visited June 22, 2023).

The Exchange notes that use of accessing the MFP API would be completely voluntary and would simply be second optional means to access the MFP. Members who wish to continue to access the MFP UI via the web portal may continue to do so for no fee.

b. Statutory Basis

The Exchange believes the proposed rule change is consistent with the requirements of Section 6(b) of the Act,⁸ in general, and Section 6(b)(5),⁹ in particular, because it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system.

The Exchange notes that providing the MFP API to Members is consistent with the Act in that the use of MFP API is completely voluntary and simply provides Members with an additional means to access the Exchange's MFP. The MFP is a useful tool for Members to manage their trading on the Exchange, including back office operations, risk controls settings, and Market Maker options assignments.

As noted above, accessing the MFP via an API would be an optional alternative to web access. Those not electing to access the MFP via an API may continue to use the MFP UI via the web portal free of charge. The MFP, whether accessed via an API or web portal, allow Members to more efficiently manage their back office operations, assist them in providing accurate clearing information to the OCC and in selecting Market Maker options assignments. The

⁸ 15 U.S.C. 78f(b).

⁹ 15 U.S.C. 78f(b)(5).

Exchange notes that trade information in the MFP is specific to each Member and their trades, allowing them to conveniently verify, update, and/or correct transaction information as needed.

Providing API access to the MFP would be provided purely for convenience, in response to Member demand, and would be entirely optional. As stated above, API access to the MFP would enable Members to connect their applications to the MFP allowing their application to communicate directly with the MFP. This enables Members to automate functions that would normally be performed by individual users access the MFP via the current web portal, such as adjusting risk settings and managing options assignments. Members who do not prefer to access the MFP API would be able to perform the same functions by accessing the MFP UI via the existing web portal.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. API access to the MFP would simply be an optional additional means to access the MFP. The Exchange does not believe there would be any competitive advantage for Members who access the MFP via an API over those who access it via the current web portal because Members would be able to perform the same functions via both modes of access. API access would simply be a convenience and would enable Members to automate those functions. The Exchange does not believe a Member's ability to automate this functionality provides any competitive advantage when trading on the Exchange. As such, the Exchange does not believe that the proposed rule change will impose any burden on intermarket or intramarket competition not necessary or appropriate in furtherance of the purposes of the Act.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

6. Extension of Time Period for Commission Action

Not Applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Pursuant to Section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(6)¹¹ thereunder, the Exchange has designated this proposal as one that effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

This proposed rule change does not significantly affect the protection of investors or the public interest, nor does it not impose any significant burden on competition. API access to the MFP is provided as convenience and would be entirely optional. The proposal would simply provide Members the additional option to access the MFP via an API, which would allow them to automate back office operations performed via the MFP, such as risk settings and Market Maker options assignments. Members who access the MFP via an API and those who access MFP UI via the current web portal would be able to perform the same functions via both modes of access. API access would simply be a convenience and would enable Members to automate those functions. For the foregoing reason, this rule filing qualifies for immediate effectiveness as a “non-controversial” rule change under paragraph (f)(6) of Rule 19b-4 of the Act.

¹⁰ 15 U.S.C. 78s(b)(3)(A).

¹¹ 17 CFR 240.19b-4(f)(6).

The Exchange requests that the Commission waive the 30-day operative delay period so that the Exchange may begin to provide API access to the MFP as soon as possible. As stated above, the Exchange currently provides web-based access to the MFP free of charge and Members have requested the ability to also access the MFP via an API so that they may automate certain functions. Members would be able to perform the same functions in the MFP regardless of whether they access the MFP via the web portal or an API. Waiver of the 30-day operative delay period would allow those Members to automate their interaction with the MFP during the operative delay period, thereby allowing Members who elect API access to begin to manage their back office operations and other functions based on their business needs. Waiver of the operative delay would also allow the Exchange to expand the means of access to the MFP sooner and meet the demands of the Members who requested API access to meet their own back office needs.

At any time within 60 days of filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

8. Proposed Rule Change Based on rules of Another Self-Regulatory Organization or of the Commission

Not applicable.

9. Security-Based Swap Submissions Filed Pursuant to Section 3C of the Act

Not applicable.

10. Advance Notices Filed Pursuant to Section 806(e) of the Payment, Clearing and Settlement Supervision Act

Not applicable.

11. Exhibits

EXHIBIT 1

SECURITIES AND EXCHANGE COMMISSION
(Release No. 34- ; File No. SR-PEARL-2023-32)

July_____, 2023

Self-Regulatory Organizations: Notice of Filing and Immediate Effectiveness of a Proposed Rule Change by MIAX PEARL LLC to Amend the Member Firm Portal to Provide an Additional Means of Access via an Application Programming Interface

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² notice is hereby given that on July ____, 2023, MIAX PEARL LLC (“MIAX Pearl” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to provide an additional means to access its Member Firm Portal (“MFP”).

The text of the proposed rule change is available on the Exchange’s website at <https://www.miaxglobal.com/markets/us-options/pearl-options/rule-filings>, at MIAX Pearl’s principal office, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange provides Members access to an internet-facing portal which provides self-service functions to Members, known as the MFP. Specifically, the MFP allows Members to correct certain trade information required by the Options Clearing Corporation (“OCC”), such as the trade’s account number, sub-account number, Clearing Member Trade Assignment (“CMTA”), Clearing Participant Give-Up, or account type. The MFP also provides Members the ability to adjust risk settings and allows Market Makers³ to request options class assignments. Members may also perform the following function via the MFP: selecting symbol assignments; editing existing symbol assignments; unassigning one or more symbol; retrieving symbol assignments; receiving export of symbol assignments for a business day; and retrieving assignment history for a given symbol assignment. The MFP allows Members to more efficiently manage their back office operations and assist them in providing accurate clearing information to the OCC. Currently, access to the MFP is provided on a per user basis, whereby Members seek to have individuals within their organization permissioned to access the MFP via a web portal on their behalf (known as the “MFP User Interface” or “MFP UI”). The Exchange notes that other options exchanges make similar products available to firms for a monthly per user fee.⁴ The Exchange provides the MFP UI to Members free of charge.

³ See Exchange Rule 100.

⁴ See BOX Exchange LLC Fee Schedule, Section III. D. The Nasdaq Stock Market LLC (“Nasdaq”) charges \$200 per month, per user. See Nasdaq Rules Options 7 Pricing Schedule, Section 6 Nasdaq Options Maintenance Tool. See also Securities Exchange Act Release No. 96723 (January 20, 2023), 88 FR 5046

Members have requested that the Exchange also provide access to the MFP via an Application Programming Interface⁵ (“API” and together “MFP API”), in addition to the current MFP UI accessed via the web portal. In sum, an API is a way for two or more computer programs to talk to each other. It is a software to software interface that defines the data and the transactions that can be communicated between systems. In providing the MFP API, functions that would otherwise be done manually via the MFP UI, can be automated. The MFP API, in essence, facilitates and expedites the transaction processing for the supported functionality such that the Exchange Members can automate their interactions with the MFP. This allows for more efficient processing, the potential reduction of operational risk due to issues caused by human error, the timeliness of the completion of MFP-related functions, etc.⁶ Providing API access to the MFP would allow Members to enable their systems and applications to communicate directly with the MFP, thereby eliminating or reducing the need for individuals to access the MFP UI via the web portal.

The Exchange does not propose to alter the current MFP or MFP UI. The Exchange simply proposes to provide an additional and optional means to access the MFP, in the form of an API, and Members would be able to perform the same functions they do today when they access the MFP UI via the web portal. API access to the MFP would allow a Member’s applications to communicate directly with the MFP. Therefore, by its nature, the MFP API does not lend itself to access on a per user basis, as is the case today with the MFP UI via the web portal. API access would allow Members to automate functions they perform today on the MFP,

(January 26, 2023) (SR-BOX-2023-03) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to Establish a New Service and Related Fees for Use of the BOX Options Market LLC (“BOX”) Trade Management System).

⁵ The Exchange intends to submit a separate filing with the Commission pursuant to Section 19(b)(1) to propose fees for the Service.

⁶ See, e.g., What is an API?, available at <https://www.ibm.com/topics/api> (last visited June 22, 2023).

such as adjusting risk settings or managing options assignments. Members who do not prefer to access the MFP API would be able to perform the same functions when accessing the MFP UI via the current web portal.

The Exchange notes that use of accessing the MFP API would be completely voluntary and would simply be second optional means to access the MFP. Members who wish to continue to access the MFP UI via the web portal may continue to do so for no fee.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the requirements of Section 6(b) of the Act,⁷ in general, and Section 6(b)(5),⁸ in particular, because it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system.

The Exchange notes that providing the MFP API to Members is consistent with the Act in that the use of MFP API is completely voluntary and simply provides Members with an additional means to access the Exchange's MFP. The MFP is a useful tool for Members to manage their trading on the Exchange, including back office operations, risk controls settings, and Market Maker options assignments.

As noted above, accessing the MFP via an API would be an optional alternative to web access. Those not electing to access the MFP via an API may continue to use the MFP UI via the web portal free of charge. The MFP, whether accessed via an API or web portal, allow Members

⁷ 15 U.S.C. 78f(b).

⁸ 15 U.S.C. 78f(b)(5).

to more efficiently manage their back office operations, assist them in providing accurate clearing information to the OCC and in selecting Market Maker options assignments. The Exchange notes that trade information in the MFP is specific to each Member and their trades, allowing them to conveniently verify, update, and/or correct transaction information as needed.

Providing API access to the MFP would be provided purely for convenience, in response to Member demand, and would be entirely optional. As stated above, API access to the MFP would enable Members to connect their applications to the MFP allowing their application to communicate directly with the MFP. This enables Members to automate functions that would normally be performed by individual users access the MFP via the current web portal, such as adjusting risk settings and managing options assignments. Members who do not prefer to access the MFP API would be able to perform the same functions by accessing the MFP UI via the existing web portal.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. API access to the MFP would simply be an optional additional means to access the MFP. The Exchange does not believe there would be any competitive advantage for Members who access the MFP via an API over those who access it via the current web portal because Members would be able to perform the same functions via both modes of access. API access would simply be a convenience and would enable Members to automate those functions. The Exchange does not believe a Member's ability to automate this functionality provides any competitive advantage when trading on the Exchange. As such, the Exchange does not believe that the proposed rule change will impose any burden on intermarket or intramarket competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, it has become effective pursuant to 19(b)(3)(A) of the Act⁹ and Rule 19b-4(f)(6)¹⁰ thereunder.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act.

Comments may be submitted by any of the following methods:

⁹ 15 U.S.C. 78s(b)(3)(A).

¹⁰ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

Electronic Comments:

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-PEARL-2023-32 on the subject line.

Paper Comments:

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-PEARL-2023-32. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>).

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-PEARL-2023-32 and should be

submitted on or before [INSERT DATE 21 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹
